

STREAMFLO® 25

Window Cleaning Kit

SK272

The STREAMFLO® 25 Trolley System is a mobile water delivery system providing pure water on demand. Simply fill the tank with tap water and it's ready to work.

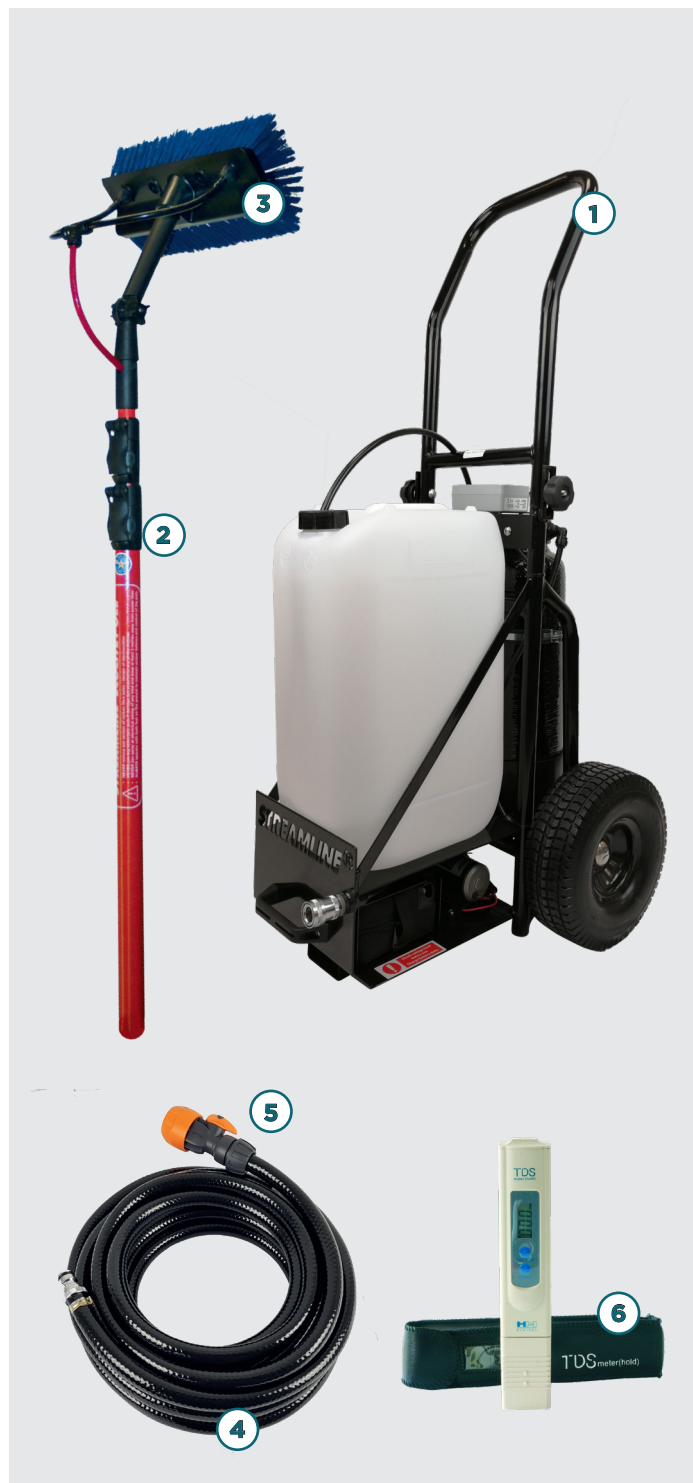

The Li-Ion battery will work 12 hours consistently on a full 6 hour charge. The max flow of the system 4.5 litres per minute with the pump working at 100psi. The system has a digital flow controller to adjust the speed of the pump, allowing the operator to save water.

Recommended for

The STREAMFLO®-25 Trolley System is recommended as a starter package, to begin the waterfed pole cleaning with all tools you need. Take the water to the window with the STREAMFLO®-25 Trolley.

THE STREAMFLO® 25 KIT INCLUDES:

1. SF-TR25-072 STREAMFLO®-25 Trolley Filtration System, complete with 18inch DI Filter.
2. GXTEL5200R ECOLITE™ 5.2mtr glass fibre pole (or other poles optional)
3. STREAMLINE® Hi-Lo 25cm brush complete with NJ3-02 pencil jets
4. 10mtr length of 12mm STREAMLINE® link hose, complete with connectors.
5. NHC12-T Hoselock tap hose connector
6. Handheld TDS meter to measure water quality water quality

Part No.	Description
SK272-252-011	STREAMFLO® 25 Trolley Package Complete With: GXTEL5200R (22ft Reach)
SK272-294-011	STREAMFLO® 25 Trolley Package Complete With: GXTEL9400R (34ft Reach)
SK272-710-011	STREAMFLO® 25 Trolley Package Complete With: OV35-30-E (38ft Reach)
SK272-714-011	STREAMFLO® 25 Trolley Package Complete With: OV45-30-E (48ft Reach)

STREAMFLO® 25

Window Cleaning Kit

SK272

What are the running costs of this system?

This is a difficult question to answer, as the life of the resin used to filter the water is influenced by how often the STREAMFLO® 25 Barrow system is used and the hardness of the input water.

Below are some figures which will help work out a rough running cost of the system:

The black resin vessel on the side of the STREAMFLO® 25 holds 6 litres of resin. (Resin is sold in 25 litre bags (£94.00+VAT), so you can refill the black resin vessel x4 times from 1 x 25 litre bag of resin)

The approximate 6 litre resin vessel production rate is shown below (MB115 Tulsion Resin):

Production Rate:		
Input Water Hardness	Approx Pure Water Production	Approx Cost Of Cleaning a House With X10 Windows
100ppm	1000 Litres	£0.60 + VAT
200ppm	500 Litres	£1.18 + VAT
300ppm	200 Litres	£2.93 + VAT

*Approximately 2.5 litres of pure water is used to clean an average window on a routine clean (a first clean would be double this).

Add Additional 25ltr DI Resin Bag MB115
