

The new SMARTANK® is a welcome addition to the STREAMLINE® range of van-mounted tank systems

Being modular in design, these tanks can be fixed into vehicles utilising a metal flange, as opposed to traditional systems which use whole metal frames. With the equipment cabinet mounted at the front of the tank, at the door opening, operation has never been easier ... and with pumps, controllers and filters easily accessible, via the opening of the cabinet, maintenance and filter changes are simple and quickly achieved.

All tanks are baffled to restrict water movement in transit. With a height of less than 400mm these tanks offer safe, low centre of gravity van systems, while taking up minimal van space. With these low level tanks and by installing a false floor, the van load area can still be utilised for a multitude of purposes and transit of other needed equipment. Various pump and filter combinations are available and each system can be offered in single or twin user options. Alternatively, the tank can be used simply for water delivery only.

Added to this comprehensive offering is a range of hose reel options to make the SMARTANK® system probably the most versatile flat tank system on the market today.

Features

- **SMARTANK®** system offers low centre of gravity and a safe means of water transport.
- Flat tank design with a false floor (able to hold up to 250 kg) maximises van load area usage.
- Pumps run on 12 volt power, making the safe, quiet running and low cost to maintain.
- Flow controllers reduce water usage to a bare minimum.
- **SMARTANK®** system presents a professional image to your clients.
- Waterfed poles with brush head options eliminate the need for steps / ladders. Utilising a waterfed system can reduce cleaning time by more than half, increasing operator efficiencies.
- Available in 400, 650, and 1000 litre options

400 Litre Systems

Tank Size	Description
SMARTANK® 400	SMARTANK® 400 Litre System with Pump and Controller
SMARTANK® 400-DI	SMARTANK® 400 Litre System with Pump, Controller and DI Vessel
SMARTANK® 400-RODI	SMARTANK® 400 Litre System with Pump, Controller and RO Filter

650 Litre Systems

Tank Size	Description
SMARTANK® 650	SMARTANK® 650 Litre System with Pump and Controller
SMARTANK® 650-DI	SMARTANK® 650 Litre System with Pump, Controller and DI Vessel
SMARTANK® 650-RODI	SMARTANK® 650 Litre System with Pump, Controller and RO Filter

1000 Litre Systems

Tank Size	Description
SMARTANK® 1000	SMARTANK® 1000 Litre System with Pump and Controller
SMARTANK® 1000-DI	SMARTANK® 1000 Litre System with Pump, Controller and DI Vessel
SMARTANK® 1000-RODI	SMARTANK® 1000 Litre System with Pump, Controller and RO Filter

Various pump and filter combinations are available and each system can be offered in single or twin user options. Alternatively, the tank can be used simply for water delivery only.

Added to this comprehensive offering is a range of hose reel options to make the SMARTANK® system probably the most versatile flat tank system on the market today. Tanks are now available in 400 litre, 650 litre, and 1000 litre capacities.
