Why Streamline® ?

Specialist cleaning vehicles in stock for all external cleaning applications

Finance solutions

Here at Streamline® we work in partnership with reputable lenders to provide the best finance solutions for your company.

Technical Support

On the road technical support across the UK, as well as a dedicated helpline, to ensure minimal down time for your business.

In-house Manufacturing

In-house CAD & CNC machine expertise to manufacture bespoke systems for your requirements.

Family Business

Offering distinguished customer service with your own dedicated key account manager, from enquiry to after sales, ensuring you get the solution for your business.

12 Month Warranty

All our systems are backed by a 12 month warranty as well as spare parts to solve every issue.

Window Cleaning Vans

Here at Streamline®, we have carried out conversions for many industry sectors and have worked hard with clients to maximise their needs whilst creating conversions that work for the user. Typical conversions encompass window cleaning vans, pressure washing vans, multi-purpose welfare vans and many more. Crash tested systems combined with other quality parts form the backbone of these conversions.

SMARTANK®

The Smartank® can be fixed into vehicles utilising a metal flange, as opposed to traditional systems which use whole metal frames. With the equipment cabinet mounted at the front of the tank, at the door opening, operation has never been easier... and with pumps, controllers and filters easily accessible, via the opening of the cabinet, maintenance and filter changes are simple and quickly achieved.

FEATURES

- Smartank® system offers low centre of gravity and a safe means of water transport.
- Flat tank design with a false floor (able to hold up to 250 kg) maximises van load area usage.
- Pumps run on 12 volt power, making them safe, quiet running and low cost to maintain.
- Flow controllers reduce water usage to a bare minimum.
- Smartank® system presents a professional image to your clients.
- Waterfed poles with brush head options eliminate the need for steps / ladders. Utilising a waterfed system can reduce cleaning time by more than half, increasing operator efficiencies.
- Available in 400, and 650 litre options
- Fully crash tested at Horiba Mura facility

Scan Here For More Information

BRAVO 650

Streamline® water filtration systems are designed to be used for window cleaning, solar panel cleaning, boat cleaning, etc. where a spot-free finish is essential. To achieve this, the system has a series of filters to produce pure water with a reading of Oppm... However, the filters require maintenance from time to time to maintain optimum efficiency.

FEATURES

- Upright tank design allows greater capacity for carrying additional cleaning equipment
- All filtration and electrical equipment is fixed on the outside of the tank for ease of access and quick change over.
- Stainless steel frame to ensure maximum safety
- Pumps run on 12 volt power, making them safe, quiet running and low cost to maintain.
- Flow controllers reduce water usage to a bare minimum.
- Waterfed poles with brush head options eliminate the need for steps / ladders. Utilising a waterfed system can reduce cleaning time by more than half, increasing operator efficiencies.

SMARTANK 650

Multi Purpose Cleaning Vans

The Streamline® Multi Purpose Cleaning Van, installed with 500ltr pure water and hot pressure washing system, is the perfect solution to any external cleaning requirements including graffiti and chewing gum removal, steam cleaning and all pressure washing applications. This set up allows up to 3 operators to work from the vehicle at the same time. This in turn increases your efficiency, saving you time and money.

HOTCUBE

Hotcube Hot Water pressure washer allows 3 operators to all work from one vehicle at the same time, saving you time and money.

FEATURES

- Highline™ Comet FDX Hot Cube, Yanmar L100 adjustable from:
 - 5 – 16 Liters Per Minute
 - 80 – 200Bar (1160 - 2900 psi)
 - 0 – 140°C Max Temp
- Exhaust fume conveyor and roof adapter to ensure fumes can be correctly extracted
- 1 x Twin stack hose reel kit with hose guide
 - 50m twin wire hose HP hose
 - 100m tank fill hose
- High Pressure 33" heavy duty dual lance
- 22" stainless flat surface cleaner
- Twin stacked hose reels increasing load space

Scan Here For More Information

CONTRACTOR

STREAMLINE™ water filtration systems are designed to be used for window cleaning, solar panel cleaning, boat cleaning, etc. where a spot-free finish is essential. To achieve this, the system has a series of filters to produce pure water with a reading of 0ppm. However, the filters require maintenance from time to time to maintain optimum efficiency.

FEATURES

- 500 litre baffled tank with vented tank lid
- Full stainless steel frame
- Twin Operator (Dual pump and controller)
- 1 x Float valve shut-off on tank Inlet
- 2m of wiring with battery terminals to connect onto a 12v battery
- 40" Reverse osmosis membrane and stainless steel housing – capable of producing up to 120 litres per hour, thus filling the 500L tank in roughly 4-5 hours
- Filterplus™ triple 10 inch Inline Prefilter Set – See replacement filter set (KIT02310-001)

Thinking Of Going Electric?

One van Zero emissions Multi-purpose

Window cleaning, pressure washing, multi-purpose, both combustion and electric vehicles. Working with a wide range of customers, Streamline® offers the vehicle solutions you need.

Low Maintenance & Running Costs

Up to 160 Miles
With 700kg On board

Travel whenever you want in low emission zones

We've tested it so you don't have to.

Ever wondered about how additional payload might impact the range on an electric van? We've run a test on the latest Citroën E-Berlingo to answer your questions.

Scan here to see our reviews on the latest electric vehicles with window cleaning equipment.

Don't Forget...

Buying a van and system can be tricky. If you need further assistance with choosing the right package for you we are always just a phone call away with our friendly sales team and technical support when you need it.

Want Your Own Bespoke Van System?

Specify your requirements with many pure water, high pressure and softwash variations to build your perfect van. Combine them all or build your ultimate bespoke cleaning van with Streamline®

See our full bespoke fit out gallery on social media...

 @streamlinecleaningsolutions

 @streamlinecleaningsolutions

 @streamline_sols

 Streamline®

PEUGOET BOXER

This van was built to very specific requirments from our client combining Soft Washing, High Pressure and Window Cleaning in one.

TRANSIT CUSTOM

This van build used every inch of the vans floor with space to spare, with a post DI system allowing the pressure washer and window cleaning pumps to operate from the same tank.

Vehicle Hire Solutions

Not ready to commit to purchasing a fully kitted out window cleaning van? Or perhaps you only require a van for a limited period? Instead of buying a full turn-key package we can offer Vehicle Hire on a short or long-term basis.

We are pleased to be able to offer our Window Cleaning Vans for you to hire if you aren't in a position to purchase, or if you only require a van for a short period of time.

There are lots of benefits to vehicle hire including:

- Having the equipment, you require quickly without a large cash investment.
- Allowing you to keep existing credit lines open.
- You can use other funding for working capital allowing you to maintain a healthy business.
- Fixed payment terms allow for easy budgeting and fixed overheads.
- Pay as you gain the benefit, not before.
- Equipment pays for itself with immediate return on investment.
- Having the equipment, you need, not the equipment your budget limits you to.
- Having total peace of mind knowing you have a full back-up service on all the equipment should things go wrong.

Our hire van package includes the latest models (subject to availability) professionally installed with a Streamline® water delivery unit with pumps and controllers, metal hose reel with 100m of Streamline® Minibore delivery hose, leisure battery and split charge relay system, polyurethane floor coating, pole racks and a bumper port. Filtration options, water fed poles, water heating systems and other accessories available for hire at an additional cost.

RFL and vehicle maintenance expenses are included, excluding fuel.

Not seeing exactly what you require?

We are more than happy to discuss bespoke packages, including size and make of van, types of equipment and accessories, and hire period options. Please get in contact with us if you would like to discuss these options further.

Provisions

- All figures provided are subject to account approval.
- All amounts quoted are exclusive of VAT which must be added at the going rate.
- The above figures do not include insurance cover on van and/or contents.

A valid insurance certificate must be provided ahead of delivery / collection of the hire van.
