

# MOBI® MAXI

The Mobi® Maxi RODI trolley system is a three-stage filtration system that incorporates three distinct purification technologies: a carbon block pre-filter, a reverse osmosis membrane, and a polishing DI filter. The result of the three filtration procedures is clean water with a purity level of 000ppm. This unit is designed to supply up to two operators.

This excellent stainless-steel mobile trolley system can filter tap water on-demand while on-site. You are able to produce a strong flow of pure water quality using a battery powered RODI trolley system.

The MOBI® Maxi trolley system can be used in courtyards, around schools, retail malls, and other situations where a van or trailer system cannot go. With the use of a short lightweight carbon fibre OVA8® pole, the trolley system can also be mounted on rooftops for abseiling or suspended platform-based cleaning.

## Specifications

- Full stainless design frame for durability
- Simple operation
- Flush valve
- Built in pressure safety valve
- Quiet Operation
- High flow / High demand unit
- Instant pure water on demand
- Comes with inline water quality TDS meter
- Pumped unit means constant flow & pressure regulation

## Operating Specifications

- **Filtration:** Pre-filtration, Reverse Osmosis and De-Ionising filter
- **Optimum Filtration Pressure:** 120psi / 8.2bar
- **Max Flow:** 8.2Lpm
- **Inlet Water TDS Range:** 100-1000ppm
- **Final Water TDS:** 000ppm
- **Voltage:** 230V
- **Operators:** 2
- **Run Time:** Continual
