

SMARTANK™

SPECIFICATION SHEET

SMT400

The new **SMARTANK™** is a welcome addition to the Streamline® range of van-mounted tank systems.

Being modular in design, these tanks can be fixed into vehicles utilising a metal flange, as opposed to traditional systems using whole metal frames.

With the equipment cabinet mounted at the front of the tank, at the door opening, operation has never been easier...and with pumps, controllers and filters easily accessible, via the opening of the cabinet, maintenance and filter changes are simply and quickly achieved.

All tanks are baffled to restrict water movement in transit. With a height of less than 450mm these tanks offer safe, low centre of gravity van systems, while taking up minimal van space. With these low level tanks and by installing a false floor, the van load area can still be utilised for a multitude of purposes and transit of other needed equipment.

SMARTANK™

SPECIFICATION SHEET

Specifications

- Width: 1120mm
- Length: 1580mm
- Height: 438mm
- Dry Weight: 65kg
- Wet Weight: 465kg

Filtration Options

De-Ionised Filtration Designed to produce pure water (000ppm) in soft water areas - 50ppm - 150ppm.

Reverse Osmosis Designed to produce pure water (000ppm) in hard water areas - 150ppm - 400ppm.

SMARTANK™ 400LTR OPTIONS

SMT400-1	Smartank400™ System with Single Pump and Controller
SMT400-DI-1	Smartank400™ System with DI Vessel, Single Pump and Controller
SMT400-RODI-1	Smartank400™ System with Reverse Osmosis, DI Vessel, Single Pump and Controller
SMT400-2	Smartank400™ System with Twin Pump and Controller
SMT400-DI-2	Smartank400™ System with DI Vessel, Twin Pump and Controller
SMT400-RODI-2	Smartank400™ System with Reverse Osmosis, DI Vessel, Twin Pump and Controller
