

POWERDRIVE 3

ELECTRIC POWERED HOSE REEL

Designed by engineers with over 50 years experience within the high level cleaning industry the Powerdrive 3 takes the strain out of winding up your hose reel after a hard day's work.

With built in anti-snag technology, this electric hose reel automatically stops if a snag is detected so you can reel in with ease and confidence.

SYSTEM FEATURES

Compact ergonomic design

Measuring at just 475mm (H) x 546mm (L) x 403mm (W), the Powerdrive 3 is built for easy installation and efficient use in tight spaces. For even greater space saving flexibility, multiple units can be stacked to suit your setup.

High powered 12v motor with heavy duty chain

Equipped with a high-torque 12V motor and a heavy-duty chain drive, the Powerdrive 3 delivers powerful, reliable retraction for demanding applications. It also features a built-in adjustable chain tensioner, a removable chain guard, and a motor inspection hatch for easy maintenance and service access.

V16 Anti-snag controller

The reel will automatically stop if it senses snags over a certain resistance, which can be adjusted to meet your requirements. Powerdrive 3 also offers four reel speed settings with a gradual start feature, giving you smooth, controlled retraction tailored to your needs.

Durable robust steel

Constructed from heavy-duty solid steel, ensuring long-lasting durability in any environment. Optional stainless steel mounting plates are available, allowing you to easily remove the reel without unbolting it from under your van perfect for flexibility and quick access.

Specification	POWERDRIVE 3
Country of Origin	United Kingdom
Maximum Height	475mm
Maximum Length	546mm
Maximum Width	403mm
Max Dry Weight	35.5 kg
Max Dry Weight without hose	23.5 kg
Max Inlet pressure	15 Bar
Max Inlet water flow	25lpm
Supply Volatage	11,5v-15v DC
Electrical power supply	12V
Minimum Operating temperature	5°C
Maximum Operating Temperature	80°C
Typical current draw	15-25A
