

STREAMVAC™

Gutter Vacuum Pole Kits

The Streamvac Gutter Vacuum Pole Kit features extra long 1750mm poles with an anti-spin V clamp system and wide diameter for maximum airflow. The poles are built from light-weight carbon fibre and non-conductive glass fibre, offering excellent reach and rigid control. Kits are complete with robust tools and a swan neck for efficient, safe gutter cleaning.

Specification	Details
Pole Material	Base & 1/2 section Glass Fibre (Blue). Higher sections 100% Carbon Fibre (Black)
Full Pole Length	1765mm (Inc. clamp)
1/2 Pole Length	900mm (Inc. clamp)
Full Pole Weight	615g Carbon Fibre (Black)/ 721g Glass Fibre (Blue) - Inc. clamps
1/2 Pole Weight	411g
Pole Diameter	51mm

Key Features and Benefits:

- Anti-Spin V Clamp System**
 Prevents unwanted spin between sections.
- Longer 1750mm Pole Sections**
 Reach higher with fewer sections.
- 51mm Pole Diameter**
 Maintains high airflow and prevents blockages.
- Base Sections**
 Made from non-conductive glass fibre (blue).
- Higher Sections**
 Lightweight rigid carbon fibre (black).
- Quick Release Clamped Hose Connection**
- Robust Aluminum Swan Neck and Tools**
