

Vivid™ PRO Fogger

(Battery)

SF-FG03-024

Vivid™ PRO Fogging Machine with rechargeable Li-ion Battery. Effective & portable infection control system

This handheld, self-contained mobile fogging unit with Li-ion Battery is ideal for use in those areas where a power supply is limited. Not being reliant on having a power supply allows for a bigger scope of operation for this portable unit, increases the functionality and service which can be offered.

- Liquid is atomised to create a very fine fog which binds to surfaces to disinfect on contact.
- Multiple spray nozzles produce different size droplets for various applications.
- Easy to carry and operate.
- Designed for disinfecting, sterilisation, air purification, anti-virus, disease preventions, and more.
- After using the foggers you only need to leave indoor areas for approx 60 mins afterwards and ventilated areas for only 20 minutes, before re-occupation.

Effective with the use of **Vivid™ 5 Sanitising Solution** or similar certified products

Ideal for use on:

- Public transport
- Emergency services vehicles
- Aircraft
- Lifts and stairwells with limited power supply
- Hospitals, clinics & veterinary surgeries
- Doctor surgeries, dentists & health centres
- Schools and colleges
- Equipment loan stores
- Nursing homes
- Delivery vehicles
- Ambulances
- Mortuaries
- Hotels, spas & gyms
- Internal play areas
- Office blocks, hotels, shops, cinemas
- High traffic internal pedestrian areas
- Shopping malls & precincts
- Public transport
- Train stations / bus stations

These are just some of the clients which find this unit indispensable for sanitising whole rooms and wards, wet rooms, lavatories, bathrooms, shower rooms, lifts, stairwells and communal areas.
