

DENVER™ Tank Systems are well established in the market as quality skid mounted tank systems, designed to make transporting water easier than ever. Fill your bowser at base and take your water supply with you saving time having to locate a water supply on site.

Tank Features

- Moulded polyethylene tanks for strength and durability
- Steel frame for stand-alone use or can be mounted in a van or pick-up, (Unique dimensions to fit most pickup trucks and vans)
- Galvanised chassis for protection against corrosion, and fork pockets for ease of handling
- Internal baffles prevent water surge during transportation
- 18" manhole and sumped drain point
- Built in tie down points

Applications

- Window Cleaning
- High Pressure Washing
