

### The Hotcube skid-mounted system is designed to be on of the most versatile hot water pressure washing systems on the market.

Available with a 350l or 500l water tank and stainless steel frame, the galvanised powder coated skid frame allows it to be forklifted with ease before being temporarily fixed or permanently secured into a vehicle of choice.

The Hotcube, 350Ltr & 500Ltr tank with stainless frame and 2 x 150A hose reels (1 for filling and one for distribution) on a painted galvanised skid. This allows the user to forklift a pre-assembled hot pressure washing kit into their van. The skid is designed to allow the user to choose between temporary fixings or bolting it into their van.
