All Streamline products are installed and supplied with a 12-month warranty. All new vehicles supplied are also covered by the standard manufacturer's guarantee. We maintain a stock of spare parts and components to ensure ongoing aftersales support and service.

WHY STREAMLINE®?

Our Technical Promise

All our systems are professionally installed by our qualified vehicle technicians at our head office in Devon, or at our Streamline® North Branch. Each vehicle install is supplied with a Streamline® spares kit, reducing downtime in the field, along with an emergency first aid kit for the operator's safety and convenience.

- 12 Month warranty on all of our systems
- 3 Year manufacturer warranty on all new vehicles
- Mobile on the road technicians
- Regular maintenance packages available
- Dedicated technical helpline

Lease Finance Available ✓

Flexible and affordable lease finance options are tailored to help you get behind the wheel quickly and easily, eliminating the burden of hefty upfront expenses.

Keep your operations running smoothly, enhance your service capabilities and grow your business with confidence all while managing your budget effectively.

All of our vans can be delivered directly to site and we provide comprehensive training on the use of our systems.

Van Hire

Flexibility without commitment. With our Streamline® hire vehicles, you can test our cutting edge cleaning systems before you buy, or hire for longer periods to keep your business moving - minimising downtime.

Whether short term or long term, our fleet is ready when you are because the best way to know it's right for you is to try it for yourself.
